4. CS Falls Short for Advanced Management (Planning) Course

The Clandestine Service has not been meeting its self-imposed quota of 20 slots for each running of the Advanced Management (Planning) and Senior Management Seminar (Planning). In the eight runnings since the quota was agreed to, there has been a shortfall of approximately 40 percent. While none of the other Directorates has fixed quotas, OTR has been getting a good mix of their participants for the 25 non-committed slots. DDTR has brought this matter to the attention of senior DDP officials.

5. Six Vietnamese Language Students Completed Nine Months Training

This group of high-aptitude, highly-motivated students performed well in this intensive language training course. It was the first group to use the expanded PAI course. The five-week unit of PAI was not only well received but beneficial in making the program a success.

6. SIC Conducts Course for Army Group

The School of International Communism completed a two-week Communism Survey for 13 members of a U. S. Army group from the Counterintelligence Directorate of ACSI. The group consisted of one officer, six civilians and six enlisted men. The interest and intellectual level of the entire group were high. The group was equal to our

highest level CTs. Judging from comments made by members of the class the program was quite well received. As a result we might anticipate additional requests for similar programs.

7. Low enrollment for National Interdepartmental Seminar

Two Agency candidates have been scheduled for the next NIS which begins 7 July. Both candidates are from the Support Services Directorate. We have been in close contact with the CS and Intelligence Directorates regarding possible candidates for this Seminar.

8. Two Former Senior Officer Course Attendees Resign

OTR was advised during the week that [REDACTED] CCS, who attended Harvard's Advanced Management Program in the fall of 1967, and [REDACTED] OCI, who was sponsored for a year's training at the School of Advanced International Studies (September 1966-1967) were resigning from the Agency. [REDACTED] has fulfilled the in-service requirement; [REDACTED] training agreement extends until September 1970. He had a research fellowship and there were no direct training costs to the Agency for his program.

9. [REDACTED] Personnel

[REDACTED]

[REDACTED] died on 17 June as a result of "respiratory and cardiac arrest due to aspiration of disseminated tuberculosis." Medical Office is following up with precautionary
